SAFETY MEETS INNOVATION

# SHK-1 HELMET

The STUDSON SHK-1 industrial safety helmet is the first of its kind in North America. The revolutionary SHK-1 is the most innovative industrial safety helmet to hit the market and now you can get your hands on it. Designed specifically for the industrial trades, the SHK-1 utilizes cutting-edge head protection components used in gravity sports but never before used together in an industrial safety helmet.

**SHELL:** LG™ABS HI100 Shell (very high impact strength at high and low temperatures).

**INTERIOR:** Integrated Koroyd® panels absorb maximum force in a controlled manner, minimizing energy transferred to your head.

**FIT SYSTEM:** Sleek 360° fit system with 20mm of adjustability up or down ensures a secure fit and comfort for all head shapes and sizes.

**VENTILATION SYSTEM:** Vents designed to keep rain out paired with Koroyd® welded tubular makeup provides unrivaled breathability.

**4-POINT RETENTION SYSTEM:** Fidlock® magnetic buckle enclosure with adjustable nylon 4-point strap, allowing for maximum adjustability and easy one-handed use with gloves.

**LIFE SAVING DIFFERENCE:** twICEme® NFC (near field communication) chip embedded in the helmet stores vital emergency information available to first responders when seconds matter.

**ACCESSORY OPTIONS:** ANSI Z87.1 Half Shield with under brim system integration, Ear Defender, Neck Shade, and Headlamp Clips.

\*Full Shield, Mesh Shield, and Sunbrero coming soon!

**MODULARITY:** Our helmet comes with a slight rear brim designed for rain deflection. Comes with additional flat rear option to achieve a cap-style look.

**ROTATIONAL PADDING:** Shield-X® Brainshield is a silicone shearing pad system which allow for rotational energy absorption under oblique impacts.

**SIZING:** M/L (53–58cm), L/XL (58–63cm)

**PRODUCT WEIGHT:** 495g
